Monthly Overview Tarot Spread

This Month's astrological influences include a Full Moon in Pisces on the 10th, New Moon in Libra on the 25th & Mercury stationing retrograde on the 9th. Mercury Retrograde often gets a bad rap-it can be inconvenient to say the least. When this planet of communication seemingly moves backwards in the sky it's a time intended for *inner reflection* rather than outward expression. We're hearing our subconscious more clearly, to the detriment of understanding others. Keep this in mind and make the most of it by journaling, meditating, and reflecting. Approached mindfully, this time can help you to make meaningful changes in your life.

Just as the Tarot in its entirety represents the Fool's journey, it is helpful to know where we find ourselves in the present moment. This card sheds light on your current situation, where you are in relation to your goals, and may shed light on underlying issues that relate to your experiences this month.

Card 3: Challenge

The difficulties we'll be confronted with this month. This can range from mundane inconveniences to major issues we will need to deal with and/or overcome.

Card 4: Lessons & Healing

These are the potential take-aways from the month. How are the events and our actions shaping and/or serving us? What will we resolve, confront or learn about ourselves?

Card 5: Whispers from our Guides

This is an opportunity for your Spirit Guides to share anything they want you to know. This can include encouragement, advice, caution, wisdom, confirmation and sometimes even the answer to a question. It may also shed some light on how to make the best of the other cards.
